Lisa grew up in an equestrian family with her mother, father, herself and her brother all being very actively involved with riding, competing and caring for horses.

By the age of sixteen she was volunteering her horse and herself for the Cowichan Therapeutic Riding program. After a time back east training and competing in upper level Three Day Events and Horse Trials, Lisa returned to the Cowichan Valley and added CANTRA Instructor certification to her Equine Canada Coach 1 status and took on teaching and training duties for the Therapeutic Riding Program. In recent years she has also been mentoring new instructors for the Therapeutic Program.

She has helped produce riders who have successfully represented BC and Canada in Para-Equestrian events. During this time she has also run her own barn on the family property and has helped her students to come up through the ranks successfully in Pony Club and to participate in many riding disciplines locally.

She has volunteered her services with Pony Club in her role as DC. She continues as a Pony Club examiner. She has spent many hours over the years helping competition organizers run many successful events. She is always available in the warm up ring to lend a hand to those in need of some extra support.

Lisa is an exemplary role model as a coach, mentor, rider and horsewoman. It is clear that her students value sportsmanship and horsemanship. She knows when to refer her students for specific help. She stays current in the Industry. She maintains high standards of safety for her riders and horses. She helps ordinary riders on ordinary horses with ordinary budgets achieve the "priceless".
